

Modern Medicine | Traditional Care

Transforming Healthcare in Salem County

If you're experiencing **varicose vein leg pain, leg swelling or slow-to-heal wounds** on your lower extremities, you may be suffering from Peripheral Artery Disease (PAD).

Salem Medical Center is proud to expand upon our suite of services to include the latest minimally invasive procedures to treat serious medical conditions such as PAD.

Schedule a consultation today to discuss treatment options, provided by Dr. Scott Hollander.

Call 631-LEG-PAIN.
